The standard was subsequently incorporated into Canadian federal law. One little-tested assumption is that safety-defined vaguely or not at all-is the be-all and end-all

of LTC. Finally, as both a methodological and political matter, the quality-of-life outcomes that have been stressed here largely must be measured by report of the LTC consumers concerned; yet, a huge investment has already been made in a nationwide assessment tool for nursing home residents, the Minimum Data System, which largely excludes these outcomes and that gathers data by ratings by care providers' ratings. In this book, I share practical tips and ideas to help you possibly achieve F Nation. December 3,
