This opportunity is aimed at exceptionally motivated clinically qualified trainees who are at an early stage of their career, but who can demonstrate the capability and drive to undertake a period of research with a view to developing a career as a clinical academic. There will be a variety of teaching styles including didactic lecture, small group discussions, large group discussions and role-play.

A number of pre-conference courses which are excellent value for money are available.

Collaboration and involvement of all stakeholder groups has proved successful in influencing government to give greater priority to viral hepatitis in a wide range of European and Mediterranean countries at all levels of economic development.

The team is led by Professor Roger Kneebone, Professor of Surgical Education and Dr Fernando Bello, Reader in Surgical Graphics and Computing, and includes clinicians, educationalists, computer scientists, engineers, social scientists, human factors and patient safety experts.

Colonoscopy by Jerome D.

If you find this useful and that as sponsors we can't together raise the profile

addition to important investments in software, it organized information sessions in France to reassure referring health professionals about the way the hospital runs. Also, driving forces should be increased.
