Too often this scholarship gets represented as simply elevating the claims of reason and science above that of faith: the reality was far more subtle and engaging. It is still a pressing concern.

Beyond that, he's a bit vague on why it still matters. It was, and is, the claim of many religions that revelation is the only uncontestable source of ethics. Towards the end, he discusses to what extent the French Revolution resulted from Enlightenment ideas and shows the philosophical backlash following this period. It would be crazy to define its nature, and crazier yet to deny its existence.
